5 Mowers \$1,039.99

9-point fleet pricing: 5 mowers or other qualifying Husqvarna product

- **Self-Propelled w/BBC**

- o Less operator fatigue and increased productivity
- o Significantly less expensive than comparable models from Honda and Exmark
- o BBC saves the user from having to restart mower every time they stop

- **Single Lever Height Adjustment for all (4) wheels**

- o Faster for changing the height
- o Will prevent scalping by accidentally setting individual wheels at different levels

- **Cast aluminum deck**

- o With a steel protective edge/wear plate on the sides of the deck
- o Tough material, but weighs less than a steel deck

- **Aluminum Wheels (w/ rubber tread)**

- o Double sealed bearings for longer life
- o Aluminum is stronger than the plastic wheels on many other mowers

- **Bagger**

- o Large grass collection bag
- o Nice solid connection point to the mower (won't fall off)

- **Handlebars**

- o Easy to adjust between (2) different operator heights
- o Easily foldable for loading in vehicles

- **6.0 hp Kawasaki engine**

- o Pressurized oil filtration system
- o Heavy duty steel bar to protect the engine
